I took a few videos with my phone and copied the audio from them into one or two of the videos. I also added some music. I then exported the videos as mp4 files. I changed the start and end point of the video using the trimming tool. Then I made the video size smaller and exported the videos again as mp4 files. That's it. I wanted to update my videos with some better text and fonts. This is what I did. 1. Open a video with videoeditor. 2. Selected "text" and inserted the text from Google font. 3. I added a background (freebie from a fellow member) 4. Adjusted some colors and made the font size bigger. 5. Opened the video as a project (did not save). 6. Opened in a new window. 7. Selected "text" and added some text from a different font. 8. Added some effects (light and shadow) to the video. 9. Adjusted the size of the font. Hope you find these instructions useful and that this is helpful for you. Any suggestions for improvement? I'm new to video editing and I want to start learning how to do this more creative way. So, I bought this app a couple of weeks ago, and I started playing around with it. My first project was to 09e8f5149f
