Expenses Manager License Key

Expenses Manager Cracked Accounts is a lightweight software application built specifically for helping you keep track of your expenses. The tool lets you create your own set of product categories and view them displayed in a tree structure. It sports a clean and intuitive layout that allows you to configure the dedicated parameters with minimum effort. The program gives you the possibility to create a new database where your expenses are stored by specifying the username. You may add multiple users and provide information about transactions, products, and number of persons. Expenses Manager comes packed with a wide range of built-in products, which are grouped in different categories, such as groceries, home appliances, services, cleaning supplies, clothes, furniture, cosmetics, entertainment, and others. Additionally, it is possible to add your own products to the list by providing details about the name, description, and image (e.g. BMP, JPEG, PNG), and edit the current items. What's more, you can filters your transactions by date, add transfers, schedule transactions, view overall statistics about all your expenses with the use of multiple graphs, generate reports, which can be printed or exported to HTML file format, and select the currency. During our testing we have noticed that Expenses Manager carries out a task quickly and without errors. It is not quite friendly with system resources, so the overall performance of the computer is not hampered. All in all, Expenses Manager offers a handy set of parameters for helping you monitor your home expenses. Thanks to its intuitive layout, it is suitable for rookies and professionals alike.
