The 23-year-old man was found by cave divers from British cave diving team Penn-Bru, who are regularly used by the emergency services to dive to and from locations around the UK. One of the divers, not identified, said that, at the start of the hour-long planned rescue, the man was unconscious, and that they did not know if he was still alive. "I could hear him gasping for air," the diver said. "I shouted 'Are you OK?'"

The year is 2095 and a serious space crisis is looming. The Earth Defense Forces (EDF) have agreed to assist their alien allies after they were attacked by the notorious Primers. With alien technology guiding their work, the EDF has managed to help fend off the Primers until a hostile alien force emerged from hyperspace, extending its presence further into human space. The EDF is on alert and ready to defend humanity, and must remain on their toes with very little time before the worst of the threat is unleashed on the planet. The only thing standing in their way is the Primer threat. You are an elite EDF soldier with the job to save your planet by destroying the aliens. Although the aliens left most of the EDF facilities functional for your use, keep in mind that many of the guns are antiquated and many of the power-ups need to be customized. The aliens only left one life form for humanity to use as a weapon: The Primer. The only time to run away is when the aliens are catching up. Build your arsenal and muscle your way to victory. A different take on the popular retro-shoot 'em up genre and the side-scrolling, two-dimensional shooter. Go head-to-head with as many of the Primers as you can. Key Game Features: A new weapon for every mission!Over 30 new weapons to help you fight the Primers. New vehicles and power-ups are always in stock. Challenge the entire Primer fleet! 30+ new Primer missions. Over 150 of them in all. Armory management as usual. Customise your load-out for every mission. And the more you play, the higher you level. A touch and go design. The touchpad is your best friend. You can rewind, cycle and complete each section. A button allow you to move on to the next round. Glorious pixel art. All the characters and enemy models have been hand-drawn to be as accurate as possible. You can easily pick out the Primers and the others. Lock and load. All the power-ups have been built in. You can switch your guns and power-ups in mid-mission. This is not a 'shoot-em-up'. Lock and load with guns that are better than what the enemies will have. No hostages. You kill every single one of them. And you lose when you run c9d1549cdd

As always, our software development team continues to impress. This month they add a new feature to the game: upgrades! These are small quality of life improvements, and they will have a small impact on your enjoyment of the game. Upgrades are inspired by many fans of Hygnospace who have suggested new features they would like to see. These suggestions are all implemented into the game, and some of them were developed by the team in the form of new game mechanics! You can read more about the upgrades here: Upgrades Short description: New game mechanic that allows the player to use abilities more frequently. A new currency has been introduced into the game. Levels. These can be earned by playing or by unlocking additional options. This currency can be spent to unlock additional goodies on Hygnospace.com or on Amazon Short description: The 'Store' is now open. The ability to purchase additional upgrades and levels is now live on the website, and on Amazon. Updates 2.0.1 contains small improvements to the game engine, fixing issues with the removal of user ratings and the achievements. In addition to the full game, we also released some experimental demos: For the first time in Hygnospace's history, we are offering full access to the public alpha version of the game. Many features of the full game are not yet implemented, but early access will give players a chance to test them out.You can download the demo here: The gameplay mechanic demo, meanwhile, is a playable introduction to the basics of the game, but should not be considered a full representation of the game. It is designed to be fun to play, and to give players an idea of how gameplay works, but it is missing many features that will appear in the full game: All your levels can be viewed in the memory management screen, to avoid having to calculate them. The code allows for them to be viewed at any time, and makes it possible to set a save point that is displayed in the memory management screen. The block system is not in place yet, but it will be implemented to make moving characters on the map easier. Storage screens have not been implemented yet, so currently, you will be unable to save/load your game. Colors are not yet implemented, so

SuperCluster: Void is a science fiction role-playing video game created for the Game Boy Advance. It was released at midnight on October 22, 2003, as a part of the Game Boy Advance "Theater" line of games. The game runs on a plot driven game system, which can be considered a difference to standard MMORPGs. Although no sites have officially published any of the rules, the game is generally known to be a combination of real-time strategy and role-playing games. Release history The game was announced on the official Square-Enix SuperCluster website. It was made for the GBA development team's "Theater" line of games. Plot Setting SuperCluster: Void takes place in a futuristic world, in which humans are at the top of the food chain (or rather, food chains), and humanity has a vast network of various dimensions, separated by the void, or deep abyss. The game's characters all exist within the main universe, which players access through the game's various portals. There are also alternate realities, that can only be accessed through the "Super" zones, each having their own characteristics. Characters The game is designed around six main characters, each representing a unique "chamber" which appears in the dungeons and zones. The main characters are: The main and only playable character from the start, Bran can run all types of zones in all dimensions, has high speed, and strong hitpoints, and is resistant to magic, but can attack with her charged weapon. A wicked, white magical girl, searching for her true name. She has the body of a small bird, flying, with pink and blue hair. She can use the power of the sky to create a magic talisman. Though she often flies alone, she is sometimes accompanied by her knight slave. An honest, freckled, woman with golden hair, she dreams of flying. A female figure with a large orchid between her horns. She works as a guardian for the children of Light, they conduct daring excursions under her supervision. A former merchant, now a slayer. He is an expert sword user with a secret identity in public, and someone who can freely kill anyone. He receives and gives the sacred "Blade" which can be absorbed to launch a killing spell, while striking the target's "Zero", the realm
