---

For the first time ever, the game introduces the new, more realistic 'FIFA Body Aspect Technology.' FBAAT dynamically infuses the new player models – scaled and animated to match the accuracy of the world's top footballers – with all the physical properties of the real players. The game features a new ball physics engine that now incorporates the same freedom and power that the world's finest footballers use every time they play. With the new physics engine, ball speed, power and touch can be added or adjusted, so players now have a greater variety of shots, passes and tricks. Once again, the European Championships and the World Cup 2016 are fully supported, including all official stadiums, referees, teams, kits and player attributes. Additional features include:

- FIFA Ultimate Team Ultimate Power – FIFA Ultimate Team has made a huge leap forward as players now have a wide variety of cards to unlock and improve their team. The more players that you collect, the more options you have in customizing your team. For the first time ever, players are able to buy and sell cards in the premium shop.
- New Import/Export feature – Players will be able to bring the latest edition of the EA SPORTS FIFA franchise to their home country and manage transfer operations, edit ratings, manage online tournaments, and even create new friendlies with the all-new Create a Club feature.
- Improved Training – The new training system is more flexible and easier to use. With improved player cards, player visuals, new training tactics, and more, players will be able to focus more on their play and create the ideal training setup.
- Goalscorers – For the first time ever, players will have a varied experience when scoring a goal. With multi-stage shots, headers, long shots, penalties, and more, players can now score in their own style.
- Chemistry – Players now have complete control of their chemistry. Based on the latest player ratings and player attributes, players can change the chemistry of all the players in their squad to focus on their preferred play style. Players can edit any player chemistry in the new Create a Player feature, and chemistry is more intuitive and spontaneous.
- New contract options – Players can now pick between various contract lengths and contract bonuses that will help them grow and develop their career, as well as choose a new contract extension.
- New animated introduction system

FIFA, short for the Federation Internationale de Football Association, is the world's biggest game. If you want to know what FIFA is all about, have a look at the Official FIFA Website: What does FIFA mean in English? A lot! The word FIFA can be translated to "football" and "fairest sport" in many languages and is often called the world's biggest game. Who is behind FIFA? FIFA is a registered trademark of Electronic Arts Inc., and is licensed to EA SPORTS™ by Electronic Arts Inc., who are in turn licensed to FIFA by Electronic Arts Inc. Is FIFA endorsed by the IFAB (International Football Association Board)? The IFAB (International Football Association Board) is a FIFA partner organisation. Can I use my PlayStation®3 or Xbox 360 to play FIFA? Yes. FIFA is backwards compatible with the PlayStation®3 and Xbox 360. What are the special features of FIFA? Besides the many gameplay innovations that contribute to the closest ever game simulation of the real thing, there are also a lot of special features that add to the game's realism, entertainment value and fun. Check them out in our special FUT 22 section: FIFA Ultimate Team FUT 22 introduces the all-new FUT Draft mode, in which you can draft real players from around the world and manage your team on and off the pitch! FUT Draft The new FUT Draft mode introduces a new way of playing the game. Instead of selecting real players in the current FIFA 22 game mode, you can draft real players from around the world. You get points for drafting successful players. You can even change your original team and name. Once you have drafted your 26 best players, you are then ready to go into a match as either your new team or your original team. The player draft takes place before you have played a game, meaning you don't have to wait until later in the season to draft your team! The FIFA Team of the Year 2016 And on top of that, we also have our FIFA Team of the Year 2016. The whole team has voted for the men and women to whom they would most like to see represent their country on the pitch. FIFA Team of the Year 2016 Goalkeeper Toni Kroos, Real Madrid bc9d6d6daa

## **What's new in Fifa 22:**

- **Career Mode - Take your career to the next level. Create the newest club in the biggest game in football. Design your kits, build your stadium, and win trophies with your dream team. Or live out your own player's career by playing against AI or against opponents in your own private leagues at home and away.**

**ZONE MARKERS - See out of reach defender positions more easily and accurately with automatic player density adjustments for all 10 outfield players, as well as the goalie. All offside defenders will now be in their correct teamzone position.**

**Defender Dribbling - Defenders can now use a sliding tackle to take opponents off the ball (instead of interrupting their attacks). Defenders can now also slide tackle the opponent to immediately become activated and in the right tackle position in the defensive wall.**

**Goalkeepers - No longer must referees send off the referee in penalty situations. You can now apply an IFAB re-take penalty to any missed penalty, giving the goalkeeper his second chance. ProRefs technology will now give you different opportunities if you miss your penalty - the most common being that your player is required to stay in the area.**

## **Pitch**

**Now 10 percent taller and two inches wider than before. Arena surfaces are tiled and have consistent surface effects. FIFA 22 remains the most visually intuitive pitch in any sports game. Thanks to the largest pitch designs in the game, expect to see more goals, shot attempts and more shots from distance than ever before.**

**The ball now changes direction more naturally.**

**New GK Reliance player bowing animation.**

---

**New FIFA indoor pitches.**

**Improved grass slopes and the surface texture of newer FIFA indoor pitches.**

**New, diverse Goal Ball Physics. Game modes rely on the Lead Ball, leading to different game-play, such as aerial game.**

**Fully flocked and artificial surfaces are now supported. More than 50 real-world grass technologies are now available.**
