The following Artist have joined the New Voyager Project: Bob de Luise Monika Hudecova Topcase volz Agnes Hohenstein Lobastia Martin Knauf Robin (german) Klaas Reitberger Andreas Delort Lori and Steve Stempel Stamos Lazariou Tun'unga Soza Saikyo Max Mayer Boris Ravn Phil Risner Mike Morasky Peter Näder John Park Katherine Kallopoulou Millie Fang Erin Underwood Matsuoka Noriko Tokuya Tsukamoto Venger Dino Billinger Marijke Holt Amanda Bohn Lonnie Bowden Bob de Luise and dozens of others! We asked you for details. The New-Voyager-Project is a big experiment of independent game development, which is also called Game Jam. In this sense, the New-Voyager-Project is interactive painting game, which is about the limits of imagination. Although it was set up as an experiment, the New Voyager Project has already attracted a lot of interest. We had to find a logo, which was also possible as a game asset. So we were looking for "new" elements for the game without taking the pre-existing game assets. Several weeks ago, we had talked to a certain developer in the forums, who mentioned the idea of an experimental game jam, with which we will continue a conversation. Let's continue with the project! Readme: Important notice: If you are a developer, you need to pay attention to the following questions: Should this be a demo version? Do you want a licence for publishing?

Alita: Battle Angel tells the story of Alita, Battle Angel, a cyborg-mutant hiding out in a destroyed New Mexico. When her ship, the "Alita", is damaged and falls to Earth, Alita discovers she has several inner body parts replaced with off-the-shelf bionic upgrades. Her journey leads her to New York City, where Alita learns that she has also become the target of powerful forces. With her skills as a dangerous bounty hunter, Alita must learn to navigate the harsh realities of her world and its politics. Battle Angel uses a combination of comic book action and strong performances to tell a story that goes beyond your standard cyberpunk blockbuster. *Choose between Playing as five different characters for three different paths *Choose between fifteen missions. *Five cinematics. *Fight through New York City in an open world *Defeat four bosses. *A world that will evolve and change over time A friend of mine had played this game and I thought that it was really well executed. So I decided to get the day 1 patch and give it a shot. This game felt like a chore to me at first. As the game progressed, I picked it up. It eventually hit a sweet spot for me and I played it more and more. The story is pretty cool. It's also very dark, but it doesn't feel like it is over the top. I really didn't find it as fun or interesting as Cyberpunk 2077, but I really like it. I just wanted to point out that if you start to feel like this game is too much of a chore to play, make sure to get the day 1 patch. It makes the game a lot more enjoyable. From the same game developers behind the hit fighting game BLUE REFLECTION, comes the newest VR fighter. GIRENJI SOLO: MEGA SUPERVIRTUAL REALITY ARMS is a 2D fighter where you can fight against your opponents using your own body movements. Experience the rush of using arms that really have an appearance and weight that match your body movements. The blustery performance on stage is no match for the VR fever exhibited in a content that brings the full power of the fight to VR players. In addition, "Carefree Training" will let you practice to move and fight comfortably. The training mode will let you learn and master your own fighting style of GIRENJI SOLO: MEGA SUPERVIRTUAL REALITY ARMS. By getting familiar with the various tactics, you will be able to feel the strength and power of the fighting game. In addition, some of the content can be enjoyed in VS mode with one of the following two characters: ■SSGSS Goku ■SSGSS Vegeta While the feeling of using a fighting game by using your own body movements is enough for the solo experience, many players also want the power of a tag match to overcome their opponents. While the GIRENJI SOLO: MEGA SUPERVIRTUAL REALITY ARMS of the fighting game has many powerful techniques, the "Hyper Combo" that can be used when certain conditions are met can be chained. As a player who has mastered the solo battle and wants to move on to the tag battles, the "Hyper Combo" of 3 and 4 can be used to attack, give all-out power to your opponents and become unstoppable. ■New Character □SSGSS Goku□ The biggest KO Hero of the original story of GIRENJI SOLO: MEGA SUPERVIRTUAL REALITY ARMS. This time, he comes with a new version of his arms for more styles of play. ■New Character □SSGSS Vegeta□ The original version of the hero who didn't have any friends, but became friends with the hero who only had friends by the side of his friend at the very last moment. He also changed his appearance for more detail. ■NEW CONTENT! In the game, new content is available through "Hyper Combo" and a "Dragoon" who can change the battlefield with "Drag
