ViZMAD Business Visual Novel (hereon as 'VN') is a broad term referring to video games with a narrative focus or story. The level of interactivity might vary from full-on interactive turn-based-combat, or story-driven over time management, like Log Horizon, to non-interactive linear adventure as in many interactive movies. Cosplay and Fan-Made VN's with a story-line are most commonly associated with the Cosplay blog and Fanfiction communities in their most visible examples like Shojo Kanojo x Fire Emblem. Fan-made VNs usually includes cutscene-free interactive over time as well, such as the Anime-Powered VNs featured on Ramen-Gosaku. The hey-nay-what-about-VN's of our day are the novel-style VNs, out of line with this axiomatic post. MMO's World of Warcraft , Final Fantasy XIV , Aion . Humble Indie Bundle Horizon: Zero Dawn (Not Selling!) Depending on your choice of ecologic niche, this might seem like the smartest possible choice, or a time and energy sink. It's a great example of "extend with practice", however, unlike many other great games of its genre, the long-running and deep "Three Cow Club" thrive on practical-but-innovative experiments rather than cheesy meta-gaming. On top of that the game still remains as exciting and unique as it did those many years before, and also, our

style or variant is still in a unique position as an established community. It's only taken some time and effort to thrive though. Horizon exemplifies the practical approach so often taken by the development team; while other big names in the genre, such as Final Fantasy XIV, try to be everything at once, Horizon specializes in a balanced, fine-tuned approach to different parts of player behavior, without falling into too many extraneous sides or flavors. For example, their characters all play with one or another weapon with the same abilities from the outset. Its rarity of features has made it easily adapted to other sources of story-based VN's for us. Various other game developers also come up and use our style in some way or another: Project Zomboid
