I'm looking for only the latest tweet. Any chance to have the limit to 1? A: According to the documentation it seems that there are two ways to do this: First: Use the id parameter and set it to the id of the tweet you want to get information of. example: However the id will just return the whole tweet, so you have to know which part you want to get information of. Second: Use the max_id parameter and set it to the id of the most recent tweet. example: You have to be sure that the id you provide is the id of the most recent tweet, because the default max_id parameter of the API will try to get information of all tweets in time. If you set this to a wrong id it will still get information of all tweets in time and not just the latest. In the first way you
