We have addressed the issue regarding the wrong translation being displayed in the game settings. This issue will now be fixed in our 2.3 update scheduled for release on May 9th (2015). The new update will include a new network feature called "Player Gallery" in addition to many other features. Depending on the progress of our development, we will update the Game Settings to incorporate this feature for a second round of localization (2.4). The importance of positive thinking in your everyday life What are you thinking about right now? If your thoughts are negative, you could be living in a negative way. A few min ago I was listening to the podcast Get Your Shiny Back. on the show, Jay Dixit, shares the importance of positive thinking. He says, "When you think about you, your life and your way of looking at the world you are creating a vibrational frequency that attracts more of the same; there has to be a counter-balance.
