Return to the evil side for the third time in this 3D platform/shooter game. With a large array of power-ups, the new wave of enemies and the sharp upgrade system for weapons, it is difficult to survive in this cruel world. The game will reward you with the best weapons for the deadliest traps and the longest combos you can imagine. The boss of Chubat used to be an inventor and a genius. Now he lives to destroy all that stands in his way. He is known as the "The Human Trash Can" and is making life difficult for all those who try to cross his path. Every little mistake has a big price. Join your chubby hero, Chubat, in his quest to save his Chubbyworld! Features: - 25 levels, with 10 unique worlds - Upgrades and Levels - Dozens of enemies - Many traps - Unique and challenging boss battles Key Game Features: Unique enemies Enemies drop only what they can carry with them Battle stages There are stages with traps, where you have to keep in mind where you can and can't shoot in order to survive Welcome to Hideout You have to find your way out of Hideout Settings Tournament mode Score attack Choice of game mode: Arcade / Time Attack / Survival I really was not expecting to like Chubby Shooter so much, but this game is genuinely phenomenal! For me it has tons of variety and I could not be happier with this game overall. It's over 7 hours in content and this is coming from someone who takes a lot of time with games, and has been a huge shmup fan since my friend introduced me to Gradius. Each level has some really neat ideas and you can really tell the amount of effort that's gone into it. From the deadly traps and control issues with the levels themselves, to figuring out which lasers to destroy, there's just so much for you to take in while you play. I was really drawn to the concept of being able to buy upgrades for your weapons and that made it really appealing to me. While it was hard and frustrating for me to get to some of the parts that were tougher to upgrade, once I got there it was way more satisfying to see the changes take effect. I am really happy I picked this one up and will definitely be picking up another! Five stars and a recommendation to anyone looking for a c9d1549cdd

About This Game: "From the Depths is a vertical submarine adventure game developed by the team behind Shadowverse. Players take control of their very own submarine, with their unique skillset, in a world that is being destroyed by a mysterious dark force, leaving nothing but a hellish place in its wake. Players can customize their submarine, and use its various mechanics to explore the deep sea and fight against the darkness with an arsenal of deadly weapons." About This Game: "Players start by building their submarine and selecting their special traits that determine their skills and abilities. Combat, as well as gathering resources from the sea, is possible both on land and in the depths. Each level is a new puzzle that features special pathways and obstacles. Defeat the foe in the depths and earn valuable experience to unlock the next challenging level." About This Game: "In each level of the game, players are guided in exploration and combat gameplay. Players are able to customize the submarine's 4 weapons, including upgradable armaments, and can toggle between vertical and horizontal views to change the line of sight on the battlefield. A variety of enemies also have unique combat moves that can be performed by holding the attack button. As players advance through the game, they may find themselves competing against other players' submarines, which can be deployed as AI-controlled subs to attack the player's vessel." About This Game: "Fully customizable submarine for hardcore action gamers. Play an engaging light-hearted experience in a demanding solo campaign of more than 80 missions. Master the art of speed, evasion and sub-aquatics in a dynamic battle system and craft your submarine from the ground up. Earn experience points to unlock powerful upgrades and complete challenging objectives. "Fun with friends. Find and join a gameserver, compete against other players or join an offline event. Test and beat your friends' creations." About This Game: "Fully customizable submarine for hardcore action gamers.
