I mention this to prove that my nostalgic and sentimental feelings about going to the movies with my dad has ebbed and flowed over the past three years. The list goes on with the TV shows I love, but I won't bore you with it. It is important to note that all of the aforementioned movies are highly entertaining to me, and I have no doubts that they all appeal to different types of audiences. For example, the first Indiana Jones movie is more of a light hearted, action packed adventure, which I find inherently entertaining. I love the fact that Indiana Jones is written as somewhat of an idiot, yet he is relatable in his enthusiasm for all things historical. The villains in the film, while usually in genocidal roles, are also funny and sympathetic, although certainly not likable people. The fact that he consistently walks out of a situation unscathed, or at least with a smile on his face, is what always kept me coming back to this series, and more importantly, cheering along with the characters. Indiana Jones and the Kingdom of the Crystal Skull is an example of a more serious sequel. It is more of a "bigger" kind of story, but when the stakes are so high, the story must move forward. If the first two were all about Indy trying to find a precious stone, the third is

about saving his friends. In this film, the Indy we know and love is on a journey to make up for lost time. After spending several years of his life in Hitler's concentration camps, Indy has now lost all faith in history. I guess for me its something different, but its almost on a pure basis of emotion. When I think of Indiana Jones and the Kingdom of the Crystal Skull, I miss the way Ford used to make his films. I miss the fun and the humor. I miss the way he used to invert every expectation. I have no idea what I expected of it, but that change in presentation wasn't it. For the third time, we find our hero Indiana Jones in the midst of something that will change his life forever. If that is what passes for a series finale, then I have no problem. Nothing can live up to the first two films, after all, and Kingdom of the Crystal Skull should last until they get that fourth one in theaters. I am still a little bitter at how the ending of Indiana Jones and the Last Crusade was cut down to a mere 5 minute extended scene. With the trailer for Kingdom of the Crystal Skull there, I must admit I prefer the shorter version of the ending. It feels more satisfying. But I still don't know how I felt about it. The trailer was the most balanced trailer ever, by far. Maybe that is why I didn't enjoy it as much. Maybe that is why I still enjoyed it. Indiana Jones and the Kingdom of the Crystal Skull comes out on DVD soon. I will try to take in the trailer again, and think about what I expected. I will admit that the trailer got me interested and excited again for this film, and that is hard to do. I will let you know if I have a different reaction next week.

## Indiana Jones And The Temple Of Doom Tamil Dubbed 296

the 2003 sequel to indiana jones and the kingdom of the crystal skull, indiana jones and the last crusade, picks up where the previous film left off. after sneaking out of a mayapore jail in disguise, indy heads to venice to get more sankara stones before they are cut up and sold at auction. but when he finds the stones, he is captured by a nefarious brit named victor sullivan, who has his own plans for them. sullivan must be stopped. to accomplish this, indy must go up against what is arguably the greatest team of bad guys in the history of film: the russians. my father and i watched this one on opening night and i have to say, it is hands down one of my all-time favourite indy films. i dont know if its the humour or the action, or maybe both, but it certainly is in a league of its own. the 1999 sequel, indiana jones and the emperor's tomb, takes place a year after the original and features more of the same. after learning of a secret hidden in a tomb in afghanistan, indy travels there to find it and stop the evil tomb robber, sallah. the film features a phenomenal performance from christopher lee, who plays villainous antagonist dr. fu manchu. lee was the only actor to play the role of fu manchu in two different indiana jones movies. the 2009 indy spin-off film indiana jones and the kingdom of the crystal skull continues the adventures of indy after he stole the sankara stones from the temple in mayapore. after indy was captured by henchmen, he was tossed into a pit and sentenced to die. indy is then rescued by an

archaeologist named elsa. elsa wants to find the sankara stones before the baddies and indy and steal them back. however, their plan is foiled by the baddies, and indy is left to try and escape. i enjoyed this film much more than the previous one. it is less of a sequel and more of a spin-off of the first film, and it does not require you to know the original trilogy to enjoy it. the story is a lot simpler, but the action and humour are on par with the originals. i really enjoyed the interplay between indy, elsa and the bad guys, and the animation in this film is fantastic. its a cracking film. 5ec8ef588b
