AviXpress provides 3D Character Animation on demand. You have the freedom to create or stream your own avatars even without the use of Adobe software. The AviXpress website offers an easy to use interface and you can create animated avatars for free as long as you are in good standing. After a conversation with another website user, we decided to start streaming ourselves as avatars. To start, we downloaded Adobe Character Animator and began streaming like regular avatars. So far we have not been able to stream with this software as streams rapidly stop working once it detects a person talking. To begin with, we were going to create 3D avatars with Adobe Character Animator, but we discovered that those avatars look incredibly crappy with the overlay provided. Making a live stream 3D character is as simple as you can get. The tutorial features the texturing and facial expressions of a 3D character created in Adobe Character Animator. If you would like to learn more about how to stream yourself as a 3D character on platforms such as YouTube, Facebook Gaming, Twitch or Discord, then watch this video to learn how. For the more tech savvy and video gamers, you will also learn how to connect your webcam to your computer. Creating a 3D character is as simple as you can get. Stream Avatars Free Offline

The Live Stream Avatars streaming addon is also included for those who have a Twitch account and do not want to use the free tools from Animaze. However, if you have a subscription to Animaze, you can also use the Live Stream Avatars Tool. Animaze Live Stream's also supports mac, android and iOS devices. The tool is compatible with all the previously mentioned streaming technologies such as OBS, VLC and XSplit. Another great feature is the ability to create a custom avatar by scanning a selfie with the game with in-built facial recognition technology. The avatars that are created and customized in the Animaze tool are saved on Google Drive which means that you can re-use the avatars for other projects and share on social media as well. Animaze X is a full-featured video editing tool that comes bundled with the Animaze streaming addon. You can use Animaze X to trim, merge, split, add effects and capture up to 2 content streams at once. All the avatars and characters that you create will be available in Animaze X and be used in the avatar panel in your Twitch channel. You can edit the audio and visual content and then publish it to Twitch using Publish to Twitch. People Creator is a free mobile app that lets you capture, edit and animate human faces. The program comes with a variety of customizable templates to build characters at the click of a button. You can import standard lighting, customize the color of a character, and apply custom animations. Avatars can be pre-designed by using the Google Developer APIs or Facebook Graph API . The major advantages of these APIs is that they can be used on any mobile device and are typically free. Adding features to a pre-designed character just require a few lines of code. 5ec8ef588b
